

2010 IS HEATING UP

NEW 10" X 36" SIZE FOR FASTFLASH PRODUCT LINE

\$995 intro offer

Get 'em while they're hot. These units are specifically designed to successfully flash cure in seconds and fully cure in 20 to 60 seconds. They allow a height adjustment of 30" to 40". They come equipped with casters and rheostat controls. The calrod heaters in these machines are warranted for 3 years.

This new size is perfect for sleeve and leg prints. With reliable, even heat over the full 10" x 36" area these units are a must have for any printer offering long designs.

Features

- Rheostat controls
- Adjustable height adjustment
- Locking casters.
- Durable steel construction.
